

### Arts4All Florida Student of the Month April 2023

12-year-old **Jake Colonall** was nominated by Susan Colonall his mother. Susan writes “Drawing has become a great outlet for him, he spends all of his free time sketching.”

Arts4All Florida was impressed by Jake’s talent as an artist. He is in middle school at West Hernando Middle School where he has earned perfect attendance, along with drawing he plays basketball. Jake hopes to become a graphic designer.

17-year-old **Bryan Loyola** attends Bloomingdale Senior High in Valrico, FL. Bryan was nominated by Pamela Reeves his art teacher.

Bryan started his artwork with 2D and is currently working on 3D art. Pamela shares “Day after day I can guarantee that Bryan is the first one to class (easily 5 min before others!). He gets his work and asks what needs to be done. He used to voice how he didn't understand a lot. Lately he asks for feedback and tackles each task like a champ. His talent and confidence has increased in his ability. He puts such enormous effort into each project. As the year progresses I can see his craftsmanship and understanding of challenges and problem solving in art increase dramatically”
